Dear Mr. President, Mr. Speaker, and Majority Leader Reid:

The 133 undersigned organizations write to express our strong opposition to any deficit reduction package that would disproportionately impact U.S. farmers and ranchers and rural America. We are extraordinarily concerned about the depth and timing of cuts to agricultural policies reportedly being considered for inclusion in legislation to increase the debt limit.

We are deeply concerned about any requirement that cuts be implemented for 2012, effectively renegeing on commitments already made to and relied upon by producers and their lenders under the 5-year 2008 Farm Bill. Furthermore, we strongly believe that any policy decisions or mandated cuts ought to be determined by the congressional committees of jurisdiction and made in the context of the 2012 farm bill.

The current record droughts, flooding and other natural disasters clearly illustrate the unique risks producers face and underscore just one of many reasons behind the need for strong, consistent farm policy which is in serious jeopardy if the reported depth and timing of cuts contemplated by negotiators are accurate.

Though we have watched the total federal dollars allocated for assistance to farmers and ranchers diminish with each passing year, farm organizations have consistently recognized the need to reduce government indebtedness. We have expressed a willingness to shoulder a proportionate share of budget reductions in relation to the share of the budget devoted to farm and ranch assistance. In fact, we may have been the only sector to step forward, despite our having already been cut three times in the past six years, most recently with significant cuts to crop insurance.

While our members support efforts to bring down the deficit and debt in an orderly and comprehensive manner, we cannot in good faith support deficit reduction efforts that target U.S. farmers and ranchers and rural America for disproportionately large cuts to the small percentage of the mandatory budget devoted to supporting agriculture. Accordingly, we will oppose any cuts to farm policy that are proposed outside the context of a comprehensive agreement involving all federal spending that seriously addresses the fiscal crisis our nation faces.

We strongly urge you to develop a balanced approach to deficit reduction that distributes reductions to all segments of the federal budget. Reluctantly, we will strongly oppose legislative efforts that fall short of this very basic request for fairness.

Sincerely,
